

Will you be able to restore your critical data if something happened today?

The 4levels Solutions Laptop Foundation delivers advanced endpoint data protection tailored for the modern digital landscape where data created on laptops and desktops is vulnerable to a variety of threats. This solution is built on industry-leading technology to ensure comprehensive protection, compliance, and recoverability of business data on employee laptops and desktops.

PROTECTION INCLUDES

- ✓ **Unlimited Storage:** No restrictions on the amount of data stored.
- ✓ **12 Month Retention:** Data is retained for a full year to allow ample time for recovery.
- ✓ **Default Protection Plan:** Covers essential folders like Desktop and Documents.
- ✓ **Scalability:** Adapts to business needs and data growth.

THE CHALLENGE

Data created on desktops and laptops is extremely vulnerable to a range of potentially fatal or highly disruptive threats.

THE SOLUTION

Laptop protects against virtually all common data loss scenarios, as well as the challenge of taking control of an explosive growth in data creation by providing all-round endpoint data protection for business data.

DID YOU KNOW?

90%

of businesses losing data from a disaster are forced to shut down within two years
