O365 Essential With eDiscovery

Will you be able to restore your critical data if something happened today?
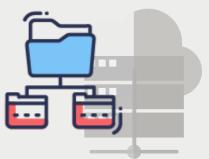

The 4levels Solutions Office 365 Essential with eDiscovery provides advanced data protection for Office 365, integrating powerful eDiscovery capabilities to meet compliance and legal requirements. Built on industry-leading technology and powered by Microsoft Azure, this solution ensures that Office 365 data is protected from deletion, corruption, and ransomware attacks, all while facilitating regulatory compliance tasks.

USE CASES

✓ **Unlimited Storage**: No cap on the amount of data you can back up, ensuring comprehensive protection.

✓ **Long-Term Retention**: Data can be retained for extended periods as needed for compliance and business strategies.

✓ **Granular Recovery Options**: Enhances flexibility by allowing recovery of specific items to meet precise recovery needs.

THE CHALLENGE

While Microsoft® Office 365™ provides a range of industry-leading applications and business collaboration tools, the data generated by them is not automatically or comprehensively protected, accessible and recoverable within the service provided by Microsoft.

THE SOLUTION

Office 365 helps companies maximize and protect their Microsoft® Office 365™ investments by providing a comprehensive platform that delivers the best in backup, recovery, archiving, search and discovery across on-premise and remote locations.
